

MAGIC TRICKS

ALL 6 for \$5.00 (Ages 8 and up)

EASY TO DO MAGIC - AMAZE YOUR FRIENDS

<p><u>RING OFF SPRING</u> - Can you take the ring off? By the way both ends of the spring are welded shut. Good luck!! Of course if you know the secret, the ring comes off just like magic.</p>	
<p><u>COLOR VISION</u> - A block with different colors on each side is given to a spectator. He chooses any color, then places the block into a small box, and puts a cover on the box. Instantly the magician can tell which color was selected.</p>	
<p><u>COMPASS CLOCK</u> - Ask someone to call out any time of the day and you are able to make the clock hand point to the exact time even though the ? mark remains upright and there is no way to move the dial.</p>	
<p><u>TRICKY PADDLES</u> - You show a paddle with a square on both sides. Shake the paddle and the square changes to a circle on both sides.</p>	
<p><u>SNAPPER</u> - See if you can insert the plunger into the holder and hook the elastic inside. You can once you know the secret. Let others try and they cannot.</p>	
<p><u>MAGIC CARDS</u> - Show 2 cards front and back. Place one behind your back. Magically the card behind your back switches with the card in front of you.</p>	

MAGIC TRICKS - \$5.00 each

<p><u>SPIKED COIN</u> - SPIKES PENETRATE A SOLID COIN!! A red coin is placed into a small plastic box and covered with a lid. Eight spikes are pushed through the box. When the spikes are removed and the box opened the coin is unharmed. Looks impossible, yet it is.</p>	
<p><u>BALL & TUBE</u> - A metal tube and solid steel ball are offered for examination. The ball is LARGER than the diameter of the tube, but the magician causes the ball to sink INTO the tube and rise out again. Of course, should the spectator try, he finds it impossible as the ball remains on top of the tube.</p>	
<p><u>CUPS & BALLS</u> - Three solid cups are shown. Three unprepared balls are shown. The balls then penetrate the bottom of each cup, time and time again. No sleight of hand is involved. Many more routines are possible with this beginners set. This is a great foundation for the budding magician to begin with. One of the oldest tricks in magic.</p>	
<p><u>CRAZY CUBE</u> - A die is placed into a box, then placed inside of another box. The magician can accurately tell what number on the die is up. This effect is very easy to perform, but makes you look like you have the power to read minds. Not just for beginners this is an excellent little piece of magic. Everything can be examined.</p>	
<p><u>BALL & VASE</u> - A ball is displayed in a handsome vase. The magician removes the ball from the vase and places it in his pocket. Suddenly, the ball reappears inside the vase. Replace the cover on the vase and when the cover is removed the ball has disappeared only to reappear back in the magician's pocket.</p>	
<p><u>PROFESSORS NIGHTMARE</u> - The magician shows 3 ropes all of different lengths. He then brings the 6 ends together in his hand and when he pulls them apart they all have become the same length. The magician then brings the 6 ends together again and right away the ropes again become all different lengths.</p>
